MICHAEL KUMPFMÜLLER

Michael Kumpfmüller's study of literature led him to become a writer himself. After studying German, he worked as a journalist before publishing his first novel, "Hampels Fluchten" (The Adventures of a Bed Salesman) which was very positively received and translated for audiences in the Netherlands, France, Finland and Great Britain.

His novel, "The Glory of Life" really hit a nerve, selling more than 200.000 copies, receiving critical acclaim.
